| 1 Gallon | 1C | 15"-18" |
| 2 Gallon | 2C | 18"-24" |

Know as the Northern White Cedar or Swamp Cedar. A dense, flat green pyramidal tree, it has feather-like, yellowish green needles with blunt tips. Grows on many sites from swamps to upland limestone sites to lake and stream banks. It has a medium growth rate. Useful for windbreaks, hedges, wildlife habitat, fence poles, lumber and as an accent plant.
